

Durban ICC's Online Training Platform

The Durban ICC is pleased to announce the launch of its new, online training platform. This will allow all suppliers and contractors to complete the compulsory induction training before coming to site, saving a lot of time when you arrive.

Your accreditation must still be obtained from the DEC Administration building upon arrival at the Durban ICC, where each employees participation and competence in the induction training will be checked and signed for. Please bring your identification documents with you. Please note that no accreditation will be granted unless you have completed the online induction course.

How it works

- ❖ A username and password (a profile) will need to be created for each of your employees coming to work at the Durban ICC.
- ❖ Please email training@icc.co.za to request the creation of these profiles. Give us your company name and contact information.
- ❖ You will also need to supply a list stating the full name and ID or Passport Number for each of your employees.
- ❖ The user profiles for our online platform will be generated using this information and each user will be linked to the necessary training course.
- ❖ You will receive a list of user profiles back. Please make sure each of your employees login to the site and complete the training course before they come to the Durban ICC.
- ❖ Go to <http://live.vttv.co.za/durbanicc> to access the training platform. Enter your profile details, select your course and watch the instructional video on how to work the training platform.

Do not hesitate to contact us on training@icc.co.za if you have any questions or issues?

Good luck and enjoy!
